“The Eastern Energy Expo is one of the most important gatherings for our industry, bringing together the people, products, and ideas that shape its future. The 2025 event was one of R.W. Beckett’s most successful yet, with unprecedented interest from both seasoned technicians and students alike in our products and our vision for renewable fuels and advanced combustion technology. The energy and engagement we saw here reaffirm why this show is essential to driving the industry forward.”

Kevin Beckett
President & CEO
R.W. Beckett Corporation

"We look forward to EEE each year—as a company and as a family. It provides the opportunity to showcase our newest product releases, our tank trucks and allows us to see many of our customers, business partners and meet new ones as well.

Every year, a new and fond memory is made. It's a show where you can work hard and play hard. From the show floor to the educational classes, this event truly has it all."

Brian Amthor
Executive Vice-President
Amthor International

FLOOR PLAN

"EEE has done a fantastic job putting together the biggest energy show in the northeast every year, allowing us to see so many of our valued clients and meet with potential new clients. As a speaker, I have a deep appreciation for how deliberate they are with planning the education sessions and selecting content that has ensured full rooms of attendees. With everything going on in the industry, I couldn't be more excited for the 2026 show!"

Marty Kirshner
Partner
Gray, Gray & Gray LLP
